Sample of text used for Home Care Referral Registry Ad on WorkSource Job Search websites:

Caregivers, would you like to choose your own hours, what days of the week you work, and how far you travel to a client's home? That's exactly what caregivers are doing when they apply to be on The Washington State Home Care Referral Registry. The registry is not a guarantee of employment, but is a data base of caregivers who are willing to provide in home care to clients on certain state funded programs. When a client needs a caregiver, we search the data base and generate a list of potential caregivers for that client based on location, availability and skills. The list is given to the client, who contacts and interviews the caregivers, and make their own selection.

The registry is a free search and match tool connecting caregivers with clients in **list your counties here** of Washington State. Must be able to pass background check. Only serious and sincere inquires should apply. No experience is necessary.

Who Needs Individual Providers?

- Employers are men and women, young or elderly
- People who need support to take care of their daily living needs because of diseases, a disabling condition, or who have complications related to aging.

What does an Individual Provider do?

- Provide personal care.
- Provide light housekeeping and cooking
- Provide companionship and emotional support

Where does an Individual Provider Work?

- Individual private homes providing support and assistance. Individual providers may work for more than one consumer/employer.

What are the Qualifications of an Individual Provider?

- 18 years of age or older
- Successfully pass a criminal history background check
- Good physical and emotional condition
- Genuine desire to help others
- Ability to communicate well with all different types of people
- Dependability and promptness
